Bureau of Working Conditions

21 December 2017

GODP Activity of the Bureau

Experts from the Bureau of Plant Industry lectured on Urban Gardening and Plant Propagation on 21 December 2017 at the Bureau of Working Conditions' office. This initiative was made possible by Ms. Lalaine Familara, the Green Our DOLE Program focal of the Bureau. The objective of this activity is to show that even with a limited space, like in an office, people can raise fresh and healthy food and that there are ways of greening the city for food and environment.

This activity was attended not just by the staff but also by the On-the-Job Trainees of the Bureau to ensure that they will also learn not just the basic workplace skills but also the aspects of the workplace that instill information in greening the environment.
