### **BWC STAFF PLANTED 300 SAPLINGS**

The Bureau of Working Conditions (BWC), in partnership with the DENR-Community Environment and Natural Resources Office (CENRO) for Region IV-A, conducted a tree planting activity wherein BWC staff planted three hundred (300) saplings in San Isidro, Sto. Tomas, Batangas.

In line with the objective of the Department of Labor and Employment towards a rehabilitated healthy environment and in fulfillment of BWC's commitment under its Green Our Dole Program (GODP) for CY 2018, this activity was made possible by BWC-GODP focal person, Ms. Lalaine Familiar.

More than ten (10) saplings per individual was planted by BWC staff in an area determined by the convergence initiative of the DENR-CENRO that needs to be rehabilitated.

The tree planting activity of the BWC is a one-day activity wherein it enabled BWC staff not only to take an active role in aiding the national government to achieve its rehabilitation goals but likewise instilled volunteerism towards taking individual initiatives on its personal capacity for a more sustainable environment.
